

The primary purpose of these Refuge cabins is to support our field operations. However, we allow public use of these cabins when they are not being used for Refuge purposes. A reservation is not a guarantee of cabin availability, but every attempt will be made to accommodate the reservations on a first come, first serve basis. Cabins may not be reserved more than 120 days prior to use. A party may reserve a cabin for a maximum of 5 consecutive nights during any 20 day period. Parties or individuals without current cabin reservations may not camp within ¼ mile of a cabin. These cabins can not be used for commercial purposes.

To apply for a cabin reservation, complete this form, fold so it is addressed to the Refuge, staple and mail. You may also phone in reservation requests at (907) 883-5312.
